

**Go**buddy

# Technology developed with a focus on **safety.**

Built with safety in mind. Doing the right thing means rigorous transporter verification and partnerships with leading institutions to support and protect our community. GoBuddy is committed to helping people and businesses connect safely.

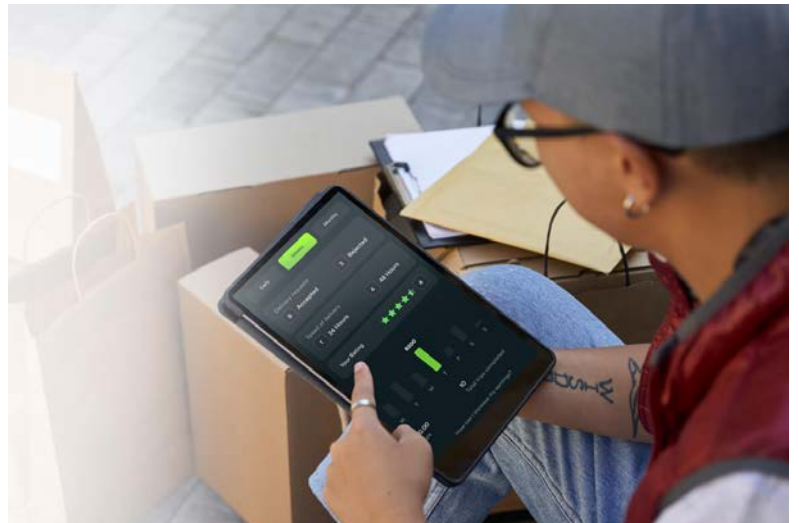

# Delivering hope

We use incident prevention tools, insurance cover, and technology that keeps you connected. Our team and transporters are dedicated to helping you deliver safely, with a focus on what matters most.

Gobuddy is constantly trying to uplift and empower the transporter community with best-in-class customer practices.

Transporters receive regular communication on how they can get better ratings, how to best conduct themselves and how to make the most out of their opportunity.

Punctual

Respect

Communicate

Courteous

# Community Guidelines

To encourage safety and trust for everyone in our community we apply a zero tolerance to theft or poor conduct. Transporters don't get a second chance when it comes to matters of safety.

Everyone on the Gobuddy platform is expected to treat others with respect, help keep one another safe, and follow the law.

You can report any incident that you believe violates Gobuddy's community guidelines to our support team.

## The power of your choices

This incredible community of people, giving their time to earn more money, will assist in a fundamental change of the delivery system in South Africa.

These positive interactions between people will help define a new paradigm in retail, with more inclusion, more empowerment, cheaper delivery fees and a collective move towards helping reduce delivery CO2 emissions.

Thank you for choosing to help make a difference in South Africa.

We welcome you to our community!
